A communication on the necessity of having a prescribed scale of fees established for the guidance of Justices of the Peace, and on the administration of law in general, is unavailably crowded out to make room for election matters this week. As next Monday will cettle the status of aspirants for Municipal honours, we shall not be pressed with so many letters for some time to come.

13- A Concent in connection with the Sabbath School of the Congregational Church will to held this (Friday) evening, - when the chil. dren will sing a number of appropriate pieces, and addresses will be delivered by several Rev Gentlemen and others. When we call to summer, and the care and attention bestowed by Miss Smith, and then recollect that since that time she has devoted much labor to cultivate musical taste among the children, we make no doubt the above occasion will be one of pleasure and profit.

"Glorious Old Norfolk."

The electors of the above constituency to the number of seven hundred, recently gave a public dinner to the Parliamentary Oppocition, in the Town of Simcoe. From all accounts, the demonstration was a perfect suceess-alike creditable to the yeomanry of the County as well as the managing committee, centiment in the West. Among the speakers present, we observe the names of WM. McDougall, Esq., M.P.P., Hon. M. H. POLEY, M.P.P., WALKER POWELL, Esq., M.P.P., and L. BURWELL, Esq., M.P.P.

public attention to the true position of affairs in the country. Mr. McDougall was the first speaker in reply to the toast of "Her Majesty's Loyal Opposition," who briefly explained the reason of the absence of Hon. GEO. BROWN-to the effect, that he was now engaged in New York, in bringing out his recent invention for the manufacture of chesp printing paper. He then adverted to the success of opposition principles-resulting in carrying 5 out of 6 Oppositionists to the Upper House during the recent elections. He then polated out the policy parsued by the present Administration in order to retain power, and expused in a most telling manner, the descitful conduct and double-dealing of the Upper Canada Leader of the Governresut. He also referred to the various charges brought sgainst Mr. BROWN-showed their untrathfulness,-and then detailed the cophistical manner in which government organs generally backed out of their position, when the true facts of the various charges were brought to light. Mr. McDougall else referred, at considerable length, to the grievances between Upper and Lower Canads showed how the policy of the existing large, instead of removing, those grievances. tration of Cartier & Co., showed by actual

He was also pleased to find that "Glorious Old Norfolk" was strongly in favor of the principles advocated the Opposition. He then pointed out the the we will be distinfully undergrood that we are no difficulties under which the country labored croment exitting here, inasmuelt as uncerupulous men could retain place and power by corruption.

Hon, M. H. Folky delivered a telling of which have been to mislead the public speech, and was listened to with a great deal of attention. When Mr Brown was called upon to form an Administration, he and Mr Dorion we have been unable to arrange our newspaper | proceeded at once to consider, not only the propriety of forming an Administration, but the practical consequences which would result from it. They saw that Upper Canada was divided from Lower Canada by an almost impassable gulf. They saw that for years together a majority of Lower Canada had been dragged at the heels of a minority of Upper Canada, enabling them to set at defiance the well-understood wishes and de sires of the majority of the people of Upper Canada. That was the position of things when the Brown-Dorion Administration assumed power. Strong differences, arising from years of accumulating hatred, existed between the people of Upper and the people of Lower Canada. It was said, however, by Mr Dorion, when called upon by Mr Brown to join in forming an Administration, that the feelings which were supposed to exist on the part of the people of Lower Canada towards the Upper Canadians really did not exist that the people of Lower Canada had been misled, and that they had been induced to aid the Coalition Government in inflicting from a misapprohension and misunderstandthat difficulties, real difficulties existed, and the basis of that Administration was the removal of these difficulties, on the principle of justice to Lower Canada as well as justice to Upper Canada."

Since our last issue matters have cettled down into something like a tangible shape, and the relative positions of parties are now more properly understond. Like the 'sister village of Bradford two tickets will be run in Newmarket-but the object is very different. On the one side we have Dr. Honter, A Boultbee and Win. o prosible for the approva of parconeppondents. Mr. Cooke's Reply. To the Editor of the New Era. Sin-I have observed, of late, several articles in your paper, the object and intent mind and to accomplish the ends of the writers and those of their friends at the ensuing election. And in so doing they have not and showing that it would be for the benefit of the village, for them and their friends to take the reins for a few years. To such course I chould have no objection, however much I might object to place them in that in council have been assailed and their characters attacked under cover of a fictitious name, because these gentlemen were believed to be in the way of their ambition and that of their friends. Is it not lamentable that there are men, who to secure the object of their ambition, can wilfully eacrifice those friends who have stood by them in the hour of need? Is it not still more so, that men can be found, for even an occasional supper not at the meeting at Bloomington Hall, on ing-Room, who are willing to lift their pen and under a fictitious name malign the characters of men they would be afraid to meet in open daylight. It is painful to think that we should allow our petty municipal affairs to interfere with all that we as men hold dear. Friendships are severed, confidence destroyed, honesty and truth have fled from our midst and persons that have heretofore met as friends are looked upon as enemies .--And why? Because a few designing men are anxious to place themselves in certain po sitions, and all must succumb, and if it their way, must be degraded in public opinion. If a man desires to get into the council, I give that man credit if he uses honorale and honest means to secure his object .--But how mean, how devoid of principle, how contemptible it is for any one to attempt to gain that by attempting to destroy the publie character of those with whom they have acted previously; and especially when their every act while in the council was lauded and highly approved of by them. I have been led to these remarks by observing an article in your last issue over the signature of "Equal Taxation." Your correspondent makes wholesale charges against the gentlemen who composed the Road & Bridge Committee of 1859, and especially does he aim his shafts at my devoted head. It is a dreadful game he has to play; he ought certainly he is fearful that your humble servant will

Letter from the South.

To the Editor of the New Era.

SIR-The several fottors which have of late appeared in your valuable journal, refating to Municipal affairs, indicate pretty clearly, a determination on the part of the prople to closely scan the acts, and designs of their representatives, to see whether their practical apheation of power agrees with their professions in pursuit of it. I rejoice to see an interest manifested which can but prove salutary, Delegated poner is very-liable to be abused, hence there is great necessity on the part of the people of a rigilant surreillance over their delegates. It is very certain that constituency, possessing sufficient intelligence to appreciate the value of honest trust worthy representatives and sufficient mora courage to relieve those that are not so, will not continue to be mirrepresented for any great length of time,

I have been much pleased in reading the communications, as they have appeared from time to time, and particularly those signed respecifully "A Voter" and " Another Rate payer," as they more immediately interest this Municipality. On the appearance of " Voter's" letter, after reading it excelully over, I proceeded to examine all documents within my reach. bearing on the points mentioned, and also made pretty thorough inquiry parties possessing a knowledge of the facts and regret to say that I . find the statements made by a "Voter" fully borne out. On the appearance of the letter of "Another

Ratupayer," I experly read it over hoping ind an auswer to the statuments of a "V or at least some mitigatory statements, but looked in vain. It is a true raying. Mr Editor that a good cause is often injured by a bad idvocate, and in charity to the parties accused must suppose it the ease in this instance.

However, Bir, taking the statements of both Voter" and "Rate payer," and comparing them with colleteral evidence, as an hones will wisher of the Township I cannot conscientiously vote for Mr Macklem, as I do not consider him at all qualified to instruct Mr Brodie how and when to Vote, and as it seems to be accessary to have some one for that pur pose I trust that we, at least those of us who live South of the Ridges, will insist on the selection of some person more competent for that as well as other duties pertaining to the office of Conneillor than Mr Macklem has

YOUNG MEN. There is an evil habit cornetimes indulged in by boys, in solitude, often grawing up with thent into manhood, and which, if not reformed by them in due time, not only begets retious ofestacles to mateimonial happiners, but give-

Self-abuse is one of the most formidable ene mies of health, for nothing else in the dire catslogue of human diseases causes so destructive a drain upon the human system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It de stroys the netvous system rapidly, wastes away the energies of life, causes mental derangement, prevents the proper development of the -yelem, di-qualifies for marriage, society, husiness, and all earthly happiness, and leaves the sefferer wrecked in tody and mind, predisposed to consumption and a train of evils more to be dreaded than death itself.
